

# VILLA/SYCAMORE PLANT PALETTE

The plant material list below details the plants that are approved for use in the Villa/Sycamore front yards. Please note that the Association maintains these yards so any substitutions or additions would need to be approved by either the Villa/Sycamore Committee or the Shady Canyon DRC and installed by the community landscape contractor. Should you have any questions regarding this process, please contact Community Manager, Shana Aaberg at 949-679-5660.
